

Week 3 Assignment 4 - Group Project: Finalize Action Plan

Overview

The purpose of the assignment is to investigate the planning process for developing student-centered learning activities with technology. You will collaborate with your learning team in the Google docs area to complete your team plan to solve the scenario-based, group project. Then, the team leader will upload the team plan to the Google team site.

Directions

As you make your recommendations for a solution to the scenario, remember to keep in mind the four basic questions discussed in the Week 3 readings:

- What will students learn?
- Which strategies will provide evidence of student learning?
- Which strategies will help students acquire and integrate learning?
- Which strategies will help students practice, review, and apply learning?

Also, when planning for successful teaching with technology lessons as ideas for the scenario, it is extremely important that you clearly identify and state the content standards, benchmarks, or indicators that students must learn. Then, find the technology standards and indicators that complement the content standards.

You can locate the National Educational Technology standards at the ISTE website:
<http://www.iste.org/AM/Template.cfm?Section=NETS>.

As you make decisions about which strategies to include as solutions for the scenario, you might want to review the type of instructional strategies that could provide feedback and evidence of student learning. Ask yourself this question, “How will students demonstrate their learning?” If there are presentations, the strategies should clearly delineate whether the project/presentation is representative of an individual, pair, or group’s work. Rubrics could delineate the responsibilities.

After the team reaches a consensus and the plan is completed, one group member will need to take responsibility for loading it onto the team shared Google site you previously created in Week 1 or 2.

If you need to review the scenario, you can access it in the Resources folder or online at the Google site: <http://sites.google.com/site/luteachingwithtechnology/>.

Also, if you need a Google site as a sample to get an idea of how to design yours, then you can view the simple one we created at: <http://sites.google.com/site/luteachingwithtechnology/home>.

Your team is welcome to be as creative as you like with this project. You are encouraged to incorporate video, blogs, wikis, and documents to share examples of how your team would provide a solution for the scenario.

Rubric

Task(s)	Acceptable	Unacceptable
Team Scenario Action Plan and Google doc	<ul style="list-style-type: none"> • Evidence each team member has contributed to the solution plan created in a shared Google doc. • Team Google doc link sent to the academic coach • Action plan should include evidence of the following components: <p>Design of the integration/intervention program:</p> <ul style="list-style-type: none"> • What grade level and content area(s) will you address to meet the unique needs of 30 students? <p>Implementation of the integration/intervention program:</p> <ul style="list-style-type: none"> • What will the learning activities/units look like? • How will you model examples for the teacher? • What 21st Century trends will you include in the program? • How will you meet individual differences? • Specifically, address the following: Gifted and talented, online users, disabled, blind, hearing impaired, and multiple achievement levels. <p>Assessment of the integration/intervention program:</p> <ul style="list-style-type: none"> • How will you assess the effectiveness of the learning activities? • How will you know when the teacher has an understanding of how to teach with technology to benefit student learning? <p>(maximum 40 pts.)</p>	<ul style="list-style-type: none"> • Incomplete team member participation. • Failure to include evidence of each of the action plan components listed in the acceptable column. • Failure to send the Google doc link to academic coach.
Team	<ul style="list-style-type: none"> • Google doc team action plan loaded 	<ul style="list-style-type: none"> • Failure to load Google doc action

Google Site	<p>to the team Google site.</p> <ul style="list-style-type: none">• Team Google site shared with team members.• Team Google site link submitted to the academic coach by the team leader. <p>(maximum 10 pts)</p>	<p>plan to team Google site.</p> <ul style="list-style-type: none">• Late with completion.• General failure to follow expectations outlined in the Acceptable column of this rubric.• Failure to submit the team Google site link to the academic coach.
